

I do not like the fact that you are trying to take away my xm radios freedom. The reason i got XM was that it was different from the radio. Its un cut and it is more diverse. The Fact that they added traffic and weather makes my commute to the city much easier. Not having to wait 10 mins for a report makes it much better to choose a way to go. I love my XM. Please do not take my freedom to PAY FOR and listen to what I want!
